

Limited Equine Lay Dentistry Short Course

The 2009 edition of the Limited Equine Dentistry Short Course will be held June 17 – 20, 2009 at the School of Veterinary Medicine at Louisiana State University. This course is designed to fulfill the requirements of the Louisiana State Board of Veterinary Medical Examiners for the practices of limited equine dentistry by the non-veterinarian. The course will include a review of equine dental anatomy, aging, common dental abnormalities in horses, dental equipment and floating techniques, and approximately 10 hours actual floating on live horses. June 17 will be 4 hours of continuing education for individuals that have completed the course in the past. June 18 – 20 are the dates of the full course including one-half day Saturday. Lectures will be provided by faculty of the School of Veterinary Medicine and laboratory teaching will be carried out by faculty and Mr. Frank Albert of Albert's Equine Dental Supply who will also be providing all of the necessary hand equipment for the course. At the conclusion of the course participants will be required to complete an unassisted dental examination and a routine dental float on a horse and take and pass a written examination in order to receive a certificate of completion and have their names submitted to the state board to legally practice limited equine dentistry in the state of Louisiana.

The course cost is \$300.00 for 1 day of continuing education (previous graduates only) and \$800.00 for the entire 2 1/2 day course. This will include all lectures and laboratories, the use of hand tools, live horses and lunch Thursday and Friday. The full course will be limited to 8 participants

Please fill out a registration form and include a check for the registration fees and send this to:
